Waterproofing Solution

**Aquastop is a waterproofing solution for sealing pipe or cable wall inlets, hollow spaces, pipe penetrations, cracks, crevices, and seams. For over 35 years Aquastop has consistently demonstrated its exceptional performance for a wide variety of sealing solutions.**

This non-toxic, organic compound exhibits exceptional water and gas resistance, ensuring a watertight seal on dry and wet surfaces such as concrete, brick, PVC, PE, and many others.

- The sealing remains permanently flexible
- Immediate sealing – no curing time
- No vapors or fumes, no chemical reactions
- Adjusts to slight movements of pipes and cables
- Allows adding and removing of cables in conduits at any time
